SPOT INTELLIGENCE REPORT

SUBJECT: Unconventional Aircraft

TO: Director of Special Investigations
Headquarters United States Air Force
Washington 25, D.C.

1. Synopsis: 2nd Lt. FREDERICK A. BEEBE, AF-1908876, 60th Ftr-Intcp. Sq., Otis AFB, Falmouth, Mass., reported sighting unconventional aircraft flying at approximately 17,000 feet, 10-12 miles north of Plymouth, Mass., at approximately 0930, 27 April 1950. Object not detected by radar scopes. No radio interference noted from 0800 - 1200, 27 April. (Evaluation C-3).

2. Details: At 1100 hrs., 27 April 1950, Lt. BEEBE reported following information to Special Agent RAYMOND I. MAC KINNON, Det. "G" 1st District OSI: On 27 April 1950, at approximately 0900 hours EST, BEEBE, flying an F-86 Sabre Aircraft solo on a routine 1-1/2 hour GCI mission out of OAFB, Falmouth, Mass., at approximately 21,000 feet altitude, was heading approximately 345 degrees over Plymouth, Mass., when he sighted a light brown object, altitude approximately 17,000 feet heading of approximately 80 degrees, flying at a terrific speed about ten (10) miles ahead at 10:00 o'clock, to left of his ship. The object flew laterally eastward until it reached a position of 2 o'clock from BEEBE, then climbed at an angle of 50 degrees until attaining an altitude of approximately 28,000 feet, then turned to an approximate heading of 0 degrees and disappeared approximately 15 seconds after BEEBE first sighted it over land. BEEBE's approximate indicated air speed was around 500 MPH at the time and he did not attempt pursuit because of the terrific speed of the object. BEEBE described the object's shape as a flat oval, no signs of support or propulsion, contrails or exhaust and he did not get close enough to observe any other particular details. Weather conditions at the time were CAVU (contrails were produced by other F-86 aircraft at altitudes of 35,000 feet or above).

a. Captain RAY E. CLARK, 16166A, Detach. CO, 654th AC & W Squadron and Controller on Duty advised S/A MAC KINNON: No indications

were received on Ground Radar scopes from 0430 - 1200 hours, 27 April 1950, of any unusual aircraft or excessive speeds in any area within the range of their apparatus. No unusual incidents were noted in the AC & W Squadron during these hours.

b. Major JACK C. WEST, 4859A, Mobile Control Tower Officer on duty from 0800 - 1200 hours advised S/A MAC KINNON: No radio interference was noted during his tour of duty and he was not aware of the reported unconventional aircraft until interrogated about radio reception. He did remember some radio squeals of 5 - 10 seconds duration at approximately 1000 hours which he concluded were repairmen testing equipment and thought no more of this common interference.

c. BEEBE, who presently resides at Cleveland Way, Indian Mound Beach, Buzzards Bay, Mass. graduated from Advanced Flying School in Class 49B, June 1949; was assigned to the 60th Fighter-Interceptor Squadron on 31 December 1949, and has an excellent efficiency index; his total flying time is approximately 450 hours of which approximately 200 hours is Jet time. Lt. Col. GLENN T. EAGLESTON, Commanding Officer of the 60th Fighter-Interceptor Squadron advised that he has every confidence in BEEBE's reliability, honesty and integrity, and believes that BEEBE is being completely sincere and honest in the reporting of this incident.

3. <u>Action</u>: No investigative action has been taken by this office, in accordance with AFCSI Letter No. 85, dated 8 February 1950.
